How To Make 200 € In Just 20 Minutes

Ok, first of all I'm going to give you a couple of rules - for your OWN good:

Follow these instructions **EXACTLY**

It's extremely tempting to become greedy with this, but that is the worst thing you can do. The system I will explain to you in just a few moments is like a "recipe" for constantly exploiting online casinos. If you don't follow the recipe, something is likely to get burned ... And that's your wallet!

The whole idea of this "system" is to give you an accurate and detailed plan to follow. If you don't follow it or just follow it loosely, you're just a fool throwing money down the drain...and I know you don't want to be that!

I want you to read through this whole document before you start to apply my method on your own. This ebook is quite short and if you do exactly what I'm going to tell you, you will be able to generate hundreds of dollars – just like I do - on a daily basis.

As you may or may not know, casino games are based on odds and the laws of averages. The casinos know this – and they know how to use the laws of averages to their own benefit. What we've done here is basically just completely turning the table. We're not breaking any laws of averages, or anything like that, we are simply “manipulating” them to our own advantage.

Once you know how to do this, it is pretty much guaranteed that you make a **HUGE NET PROFIT EVERY SINGLE TIME** you play.

With that said, this system has been tested and refined for a long time to work for one SPECIFIC Online Casino. Every casino is different and uses **slightly different algorithms to generate its random numbers**. Because of that, I STRONGLY advise you to play at the particular casinos I will recommend to you in a minute.

These casinos are using “non truly” random numbers, but numbers created by a software running on the casino server. This is “ok”; you don't have to fear fraud or wrong numbers, the software just emulates a normal bricks and mortar casino. The software the casinos are running is standardized and reviewed by a third party trust service; otherwise they wouldn't get a licence to offer gambling services on the internet. My system depends on the random number generators of a few SPECIFIC casinos, therefore I advise you to **act quickly**. I don't know how long this “chance” will stay.

You cannot blame me if you go to another casino (which might have another random number generator) and end up losing your hard earned money. So stick with the casinos which I already milked with my method!

So let's get right down to the specific Steps of our strategy.

Step #1 – Download The Software

The first thing you need to do is download the Free Casino Club Software and install it. Remember when I talked about the specific casinos you should play at?

The best casino to start with is Casino Club. Their Random Number Generators are quite unique in the way they calculate the results. This means, if you know what to do, you can turn the odds in your favor.

I can't stress this enough, though – this will most certainly work at Casino Club and Rushmore Casino, but most likely not so well at other online casinos.

Simply click on the link below. I can guarantee that the Free Casino Software you will download is absolutely secure and will not harm your computer.

[Click Here To Download The Software](#) (Non US)

If you have problems, please copy the following link into your browser:
<http://www.how-to-make-money-easily.com/download.htm>

IMPORTANT: Unfortunately **US-Citizens** cannot play at Casino Club. If you are from USA just:

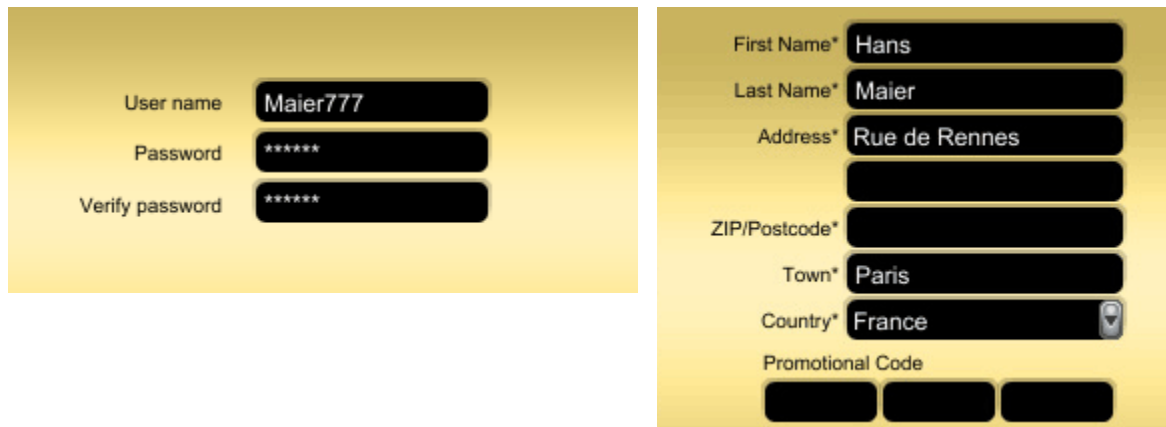

[Click Here To Download The Software \(US\)](#)

- 1) You will need to click "Open" or "Run". If you are using Firefox you may have to "Save" the file to your desktop and then launch it.
- 2) Click on "OK" to start the installation.
- 3) During the installation progress always click at "OK"
- 4) Start the Software.

Step #2 – Register As New Player (Example: Casino Club)

After you have installed the software, just **create an account for free**. In order to do so, just choose a nickname and a password after you have agreed to the licence agreements. It's easy as that. You have to enter your date of birth and address data because of legal regulations to prevent underage gambling. If you worry about unwanted advertisement you can enter slightly incorrect data except your name. The account will work anyway. Please write down your nickname and your password.

The image shows two parts of a registration form on a yellow background. The left part contains three input fields: 'User name' with the text 'Maier777', 'Password' with six asterisks, and 'Verify password' with six asterisks. The right part contains several input fields: 'First Name*' with 'Hans', 'Last Name*' with 'Maier', 'Address*' with 'Rue de Rennes', 'ZIP/Postcode*', 'Town*' with 'Paris', 'Country*' with 'France', and 'Promotional Code' with three empty boxes.

Once you have finished signing up, click on the button **Login**. After the software has validated your account, you will see two options at the top of the screen “REAL PLAY MODE” and “PRACTISE PLAY MODE”. If you just want to play around with the software and get used to it, you may try the “practise play mode” and later on go to invest real money. But of course just playing around won't make you any money, therefore let's continue with our strategy.

Select the game "European Roulette" in the menu

"ROULETTE GAMES" -> "EUROPEAN ROULETTE" (similar at Rushmore, I am sure you will quickly find out how everything works).

Click on the button **JOIN**. Check "Turbo mode" at the options menu if you want to play faster. Choose a 5€ bet and play around with the software for about 2 minutes. You can take back a bet by clicking the right mouse button.

If you play exactly like I'll describe in a few minutes, you will see that you are MAKING A GREAT DEAL OF MONEY IN A SHORT TIME. Below you can see a Screenshot: That's what happend after I applied the method and played about 20 minutes:

The **PRACTICAL PLAY MODE** starts with 1000€. I made unbelievable 1714€ in just 20 minutes. That is 714€ pure profit! I'm sure you want to try this on your own after you have finished reading this ebook.

Step #3 – Deposit Some Money

Before you can actually apply my secret money making method, you have to deposit a small amount of cash as seed money. Unfortunately you cannot get around that, but keeping these two things in mind should help you ease up on the decision:

1) You will be able to **cash out your seed capital** just a few days after you started to apply my money maker method, as you get your seed capital **doubled** by the casino. Therefore you don't have to risk your own money.

2) If you start to feel a bit unsure and therefore decide not to apply my strategy for any reason, you can **REFUND YOUR MONEY BACK** at **ANY TIME**. So you have your money back at your bank account in about 2 days, which only depends on the speed of your local bank.

To make a deposit, log in into the Casino Club (or Rushmore) casino software. Once you've logged in, you'll be presented with the main casino welcome screen. The first thing you need to do is

to click on the “CASHIER” button at the lower left corner of the screen.

Click on the “Deposit” button that appears next. This will allow you to add funds to your account.

After you signed up at **Casino Club**, they will give you a **BONUS of 100%** (Rushmore up to 444\$ at the moment) of your First deposit to give new unexperienced players the possibility to try their games at a lower risk of loss. I recommend taking use of these BONUSSES as it is additional money they offer you **for free**. Very often online casinos are offering these Bonuses even if it is NOT profitable for them. Nowadays, Online Casinos experience a **great rise in popularity**. More and more people see the many advantages of Online Casinos in contrast to real life Casinos.

Therefore the rise in popularity of Online Casinos means that they can afford giving New Players High Bonuses and keeping players which cost them money, as the losses of untalented players make up for the winnings of strong players. For that reason they are still making good money running their businesses; Money, you will soon transfer into YOUR bank account.

By depositing an amount of at least 100€, the deposit you make is **doubled** by the Casino. The higher the FIRST deposit you make the higher the Bonus. **Casino Club** gives you a Bonus of 100% which means that if you deposit 100€ you get 200€ to wager (the

same is true for Rushmore Casino with a maximum of 444\$ Bonus for the first and 444\$ for the second deposit).

Now, only using the FREE BONUS they give you, you can PLAY using my system **100% RISK FREE!** If you make a mistake (i.e. you didn't follow the instructions or made another mistake), then you still haven't lost a single penny of your own, as you are only **BETTING THE BONUS** instead of your OWN money.

To benefit the most from my strategy, you should make a deposit **of about 100€-200€** (Rushmore 444\$ if you want to get the full bonus; or less, it's totally up to you). Don't worry about the amount of money you deposit as **you can easily refund it back to your bank account at any time**, as I already stated above.

The best approach to take is:

- a) Deposit **200€**
- b) **Play with the Bonus** for a while and then later...
- c) **Withdraw** your original stake of **200€+ All Of Your Winnings.**

To deposit at Casino Club click on the menu **CASHIER -> Deposit -> Credit Cards.**

And Now: My Secret Money Maker Strategy

I know, you already thought “When is he going to give me his method?” So here it is. Once you’ve cashed in your Starting Capital of about 200€ (I recommend at least 100€):

- a) Select the game "**European Roulette**" in the menu "ROULETTE GAMES" -> "EUROPEAN ROULETTE".
- b) **Click** at the button **JOIN**. You can check "Turbo mode" at the options menu if you want to play faster.

Remember, it’s important not to be greedy once the profits start rolling in – that’s exactly what they want you to do, betting all your money on a “lucky streak” and then loosing it all in one silly game – because that’s how they make their money.

Follow the rules and you won’t end up getting sucked dry by the casino! This system utilises a 3 Rows Style of betting to start off with a low bet and then build up to a much higher level. Rather than betting on a single number which gives you a 1 in 36 chance of winning (not good!) this system gives you a **1 in 3 chance** of winning. BUT this wouldn’t be a secret method if we wouldn’t be able to use it in a way that will **dramatically increase our chances of winning even more**, wouldn’t it.

First you need to understand how the table looks like:

There are 3 rows that you will be betting on – as shown in the screenshot above:

- For the 1st row (34-31-28-25-22-19-16-13-10-7-4-1), any of the numbers from 34 to 1 will give you a win.
- For the 2nd row (35-32-29-26-23-20-17-14-11-8-5-2), any of the numbers from 35 to 2 will give you a win.
- For the 3rd row (36-33-30-27-24-21-18-15-12-9-6-3), any of the numbers from 36 to 3 will give you a win.

By betting normally on these three rows, the odds are 1:3 meaning that if you want to just break even, you have to win at least one out of every 3 spins.

That's the point where our system starts working it's magic: Applying everything you're about to learn, you'll be able to increase the odds for yourself in a way that will make sure **you'll only need to win 1 spins out of 17**. Sounds still a little risky?

Well, you might think so, but only until you realise that the law of averages states **you should always** be able to **get more than 4 wins out of those 17 spins!**

If you don't get it yet, don't worry, here is how you play it. So these are the core rules. Following them is of utmost importance:

- 1) As a new player in Real Player Mode open a new private roulette table (**highly recommended** as you can play on your own) or choose a table where are already players betting. You can **spin the wheel without having to bet** first, or if there are other players the wheel spins automatically.
- 2) You need to **look for a specific sequence in the numbers** when **ONE** of the 3 rows has **not come up for 7 spins in a row**.

Do NOT bet until this happens. In any case, **take the time to wait for this event** even if it takes a while, as this is very important for your bettings. Let's assume the FIRST ROW didn't win for 7 spins.

- 3) The odds of one number not turning up for 8 spins is over 1:25 meaning that 24 out of 25 times you WILL get the result you want – in this case a number from the FIRST ROW. So **NOW is the time to bet** on the FIRST ROW.
- 4) You must always use this system and ONLY bet once there has been a **gap of 7 spins** without numbers from the First (respectively the Second OR the Third) row coming up. Stay patient, and by all means, don't get greedy.
- 5) Now that you know it is SAFE to bet, you need to know **HOW to bet**. To bet a certain amount, click on that type of chip, e.g. blue 1€ chip, and then click where you want to place it on the table (in the example the 1st row).
- 6) Using our system, you will **start off with a small bet** as in the table below and **build your way up** to the maximum bet. When you reach the end of the sequence, you'll be getting a **return of over 200€ per bet**.

Bet Number	Your Stake	Your Winnings
1	€1	€3
2	€2	€6
3	€3	€9
4	€4	€12
5	€6	€18
6	€9	€27
7	€13	€39
8	€20	€60
9	€30	€90
10	€45	€135
11	€67	€201

So to give you an example of how your betting procedure should look like:

Start off at **bet number 1**, i.e. you **wait for a 7 spin gap** and then **bet 1€** on the ROW that hasn't shown up for 7 spins.

This gives you 199€ of seed money left, and 1€ on the table.

- A win will **get 3€ back**, so you have a **net profit of 3€ - 1€ = 2€**
- The **next bet** is then **2€ ON THE SAME ROW YOU BETTED BEFORE** for a return of 6€ and so on...all the way up to 67€ for a return of 201€

Once you've got to the end of the cycle, you should go back to starting at just 1€ again **AFTER YOU WAITED FOR ANOTHER 7 SPIN GAP.**

This will ensure that you keep building up your balance by **200€-300€ every single round.**

However, even if a bet doesn't win, don't worry! Simply move on to the next number for the following bet and **YOU WILL STILL WIN MONEY.**

For example: If you bet 1€ for your first bet and lose, you are down 1€. So if you started with 200€, you now have 199€.

Next time, you bet 2€ – taking you to 197€ seed money left and 2€ on the table. If this one comes in, you'll get a return of 6€ making your total now $200€ - 1€ - 2€ + 6€ = 203€$ so **YOU HAVE STILL MADE A PROFIT, even though you LOST the first round!**

Even if that 2€ bet loses again, you bet 3€ next time – giving 194€ seed money left and 3€ on the table. If you win, you get 9€ giving you $200€ - 1€ - 2€ + 9€ = 205€$ total!

Even if you get to the end of the sequence and lose, it still doesn't matter. Your net profit is even rising if you come to the end of the table.

Say you get towards the end and bet 45€ and lose... $200€ - 45€ = 155€$.

The next bet is 67€ giving you $155€ - 67€ = 88€$ left in the pot. If this one wins you get 201€ giving you a total of 289€ in your pot!

Using this system, **you can lose up to 11 rounds**, but as long as you keep increasing your bet each time **you will ALWAYS make a profit!** Now can you see how powerful this system is?! I personally used this System at Casino Club for about one year now.

Regarding the probability of losing 11 rounds in a row (which mathematically is already as low as $0,000488 = 1:2048$): To give you an idea of the "risk" involved, even I didn't manage to lose 11 rounds in a row for more than 5 times in **an entire YEAR** of applying this method – And I played at least 2 hours a day 6 days a week, meaning I probably spun the wheel more than a hundred thousand times in that year! I can remember to lose 11 rounds 5 times in a whole year, but it meant nothing in relation to the profit I already made using this method.

If you're still not convinced, try this:

- 1) Just go to „**Practise Players Mode**“ NOW.
- 2) **PLAY for 5 Minutes** like I described above.
- 3) See how you **MAKE MONEY**.

If you still don't believe me AND are reluctant to at least give it a try just to prove me wrong, it's fine by me, though – There are dozens of crappy money making method on the internet that work only partially or not at all, feel free to go and waste your money on those. Most other methods will either cost you a lot of WORK, a lot of TIME or even will NOT BRING THE MONEY you need. Just think about what you can afford having a couple of 1000€ more in your bank account just by installing a small piece of software and 20 Minutes of playing.

I don't know how long it will last, so ACT NOW...

Here's a quick review of what to do:

- 1) Click on the link below to **install the software** and set up a new account:

[Click Here To Download The Software \(Non US\)](#)

[Click Here To Download The Software \(US\)](#)

- 2) Use the “Cashier” function to make a deposit. Use Debit or Credit card for instant funding.
- 3) **Deposit 200€** (Rushmore: 444\$) to get the maximum Bonus. If you can't afford this, make sure you deposit **AT LEAST 100€** to make sure you can start playing with bonus money and therefore keep **YOUR** money safe.
- 4) Choose a **Roulette Table** with standard stakes.

- 5) **Spin the wheel** without betting **until one ROW hasn't turned up for 7 spins** in a row.
- 6) Start **betting according to the table above**. Whether you win or lose that bet, make sure that you move onto the next stake for your next bet – this will ensure that you always make a profit overall.
- 7) If you unluckily get to the end of the sequence without any winnings, what only happens extremely rarely (the probability is far below 0,0004; for Casino Club even lower), start back at 1€. This is always a good time to exit and start on a “fresh” table.

That's all there is to do it! It's incredibly simple, but like I said, you have to be disciplined and stick to it. Using this system you can lose up to 10 times in a row and **will still always walk away with a profit**.

As a final note, feel free to give this report away to any of your friends, family or contacts that you think will benefit from this. This book was written to help “The Little Guy” like you and me to make some decent money by beating the big casinos. Once you've put this system to the test you'll want everyone else to experience the same success that you have.

I wish you great winnings,

Pier Renée
